VT MARKETS

VT has been expanding its field of activity since its creation. It currently operates in four markets

AUTOMOTIVE BATTERIES

INDUSTRIAL BATTERIES

LUBRICANTS AND ADDITIVES

AUTOPARTS

GLOBAL PRESENCE

Through strategic agreements with **international brands**, VT has positioned itself as a **world leader with a global presence**.

These partnerships have enabled the company to expand its reach in key markets, consolidating its commitment to innovation and performance in sustainable mobility.

VT BATTERIES VALUES

VT's growth is based on non-negotiable values that have grown with the company's own progression.

TRUST

Trust is the glue of business. It is the most essential ingredient of effective communication. It is the principle that sustains all relationships.

LOYALTY

Loyalty cannot be given in advance. It is a strength that only emerges when the right conditions are in place and must be continually reinforced.

QUALITY

Quality is never an accident. It is always the result of intelligent effort. Quality is the best business plan and is our main strength.

INCONFORMISM

Non-conformism implies not accepting what is stable in order to seek improvement in all business processes and systems.

INTERNATIONAL NETWORK

VT has a solid international network of **distributors and customers that supports its global presence in 50 countries with recurring sales.**

Its solid international sales network and its physical presence in different countries such as **Morocco, Brazil, Colombia, Africa and soon the USA** allow VT to reach practically every corner of the planet, consolidating its position as a global brand backed by industry leaders.

VT BATTERIES

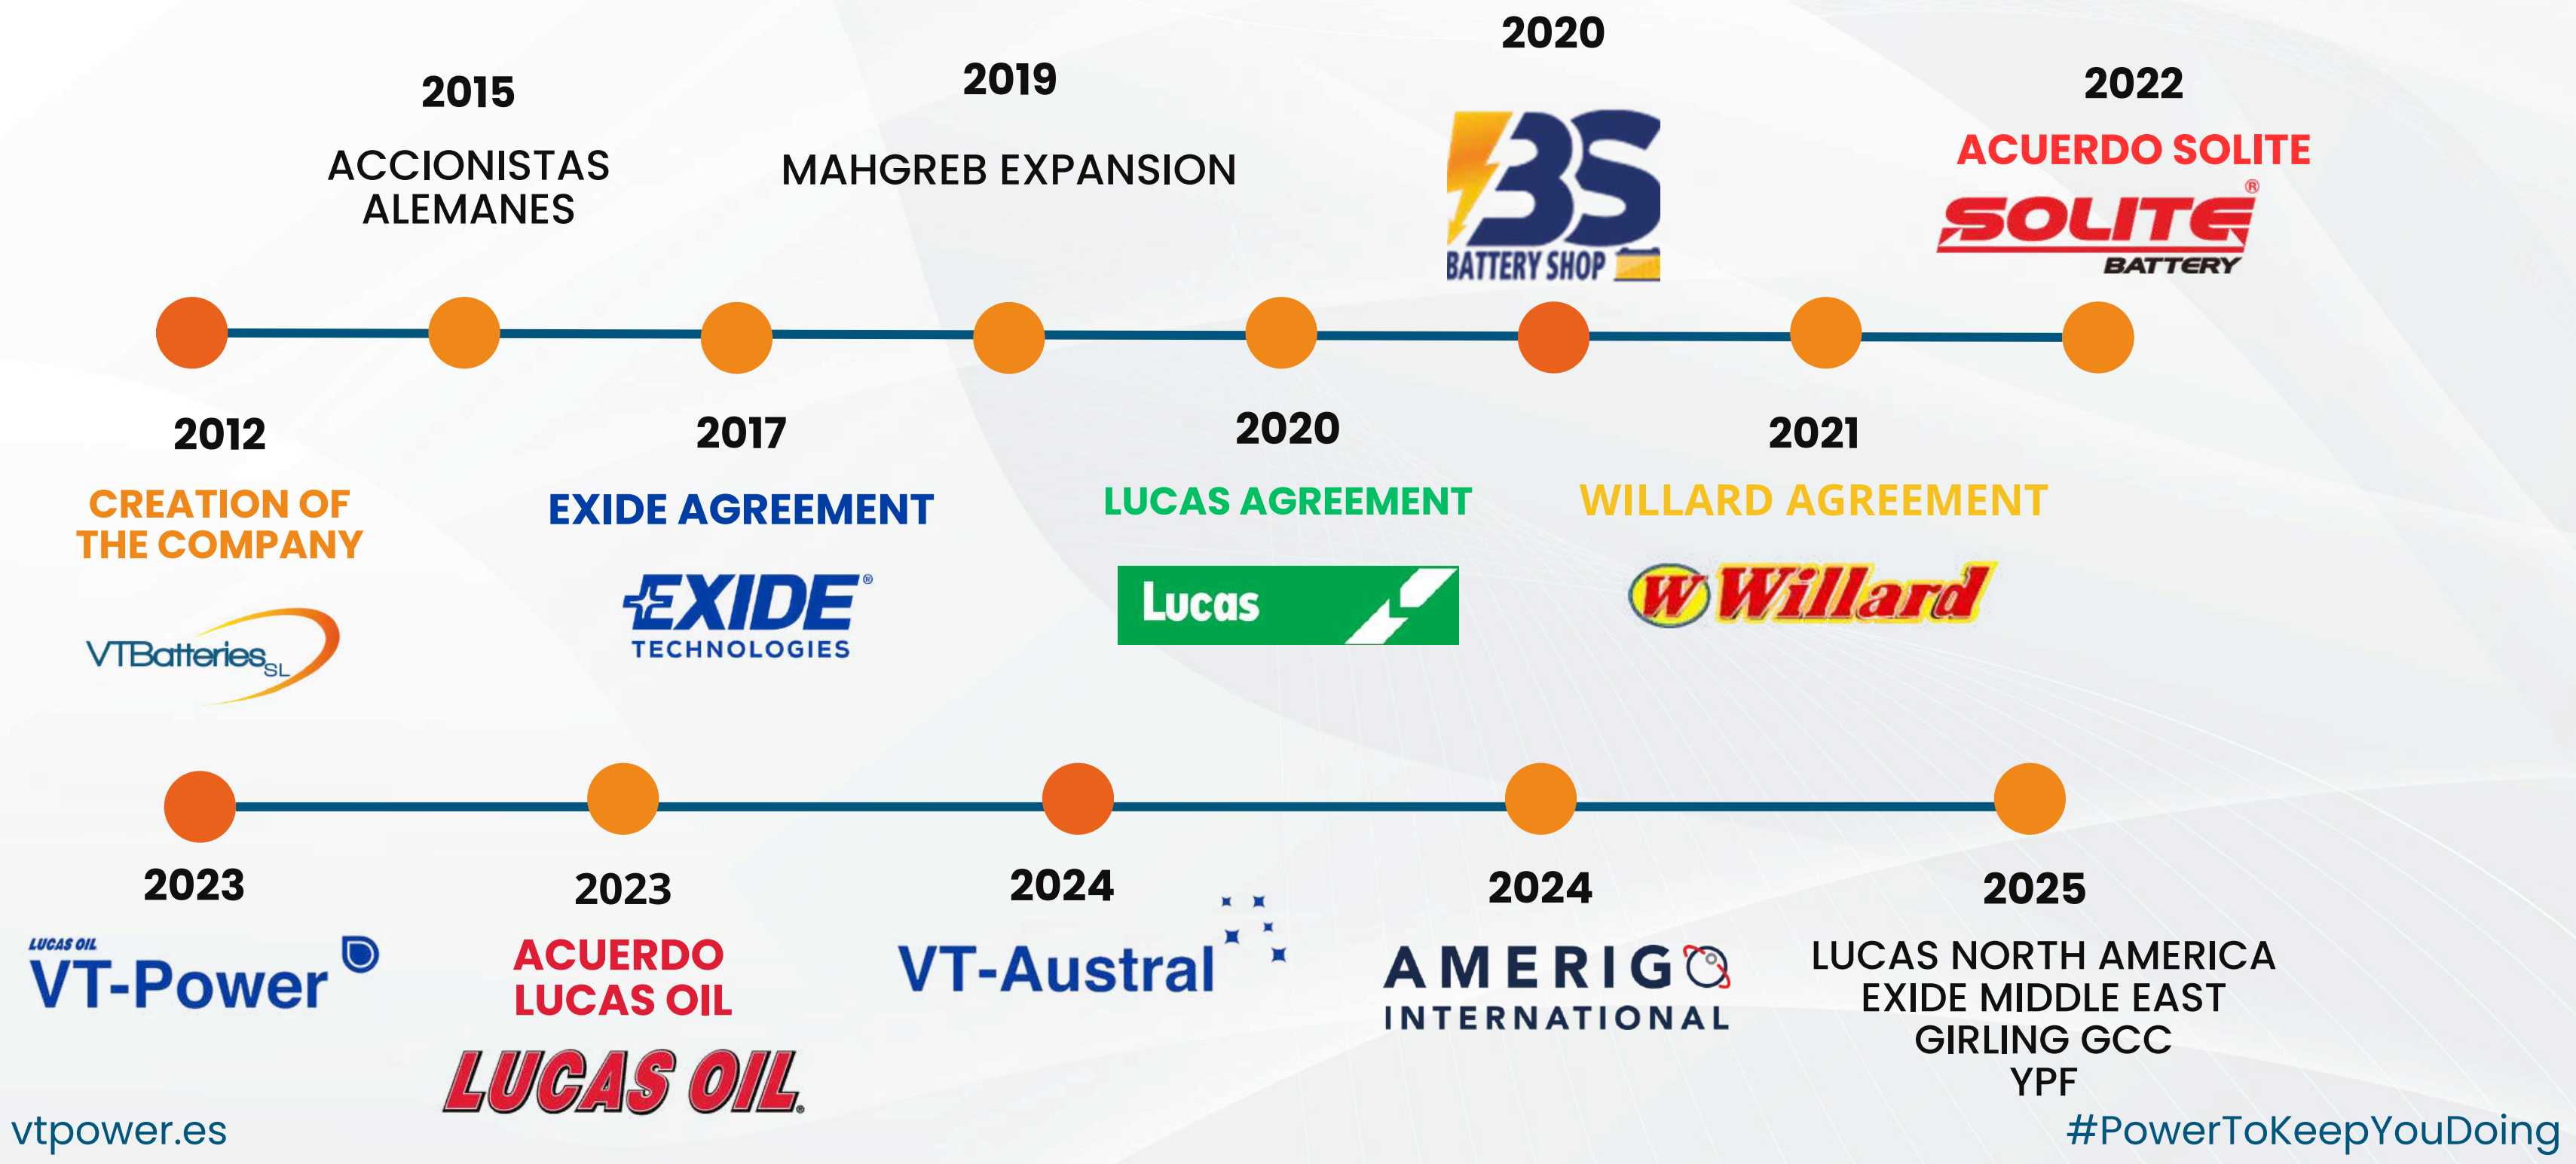

VT Batteries has established itself as a leading multinational in the domestic market and an international benchmark with a wide commercial network and active presence.

The company, which started out focused on automotive batteries, has diversified its portfolio to include lubricants, additives and auto parts. Its alliance with leading brands has boosted its global projection, attracting top-tier firms that rely on VT Batteries to manage their worldwide distribution.

The company's headquarters in Spain and its international subsidiaries manage the sale of its premium brands worldwide.
