VT MARKETS

VTBatteries has been expanding its field of activity since its creation.

It currently operates in **four markets**:

01

**AUTOMOTIVE
BATTERIES**

02

**INDUSTRIAL
BATTERIES**

03

**LUBRICANTS &
ADDITIVES**

04

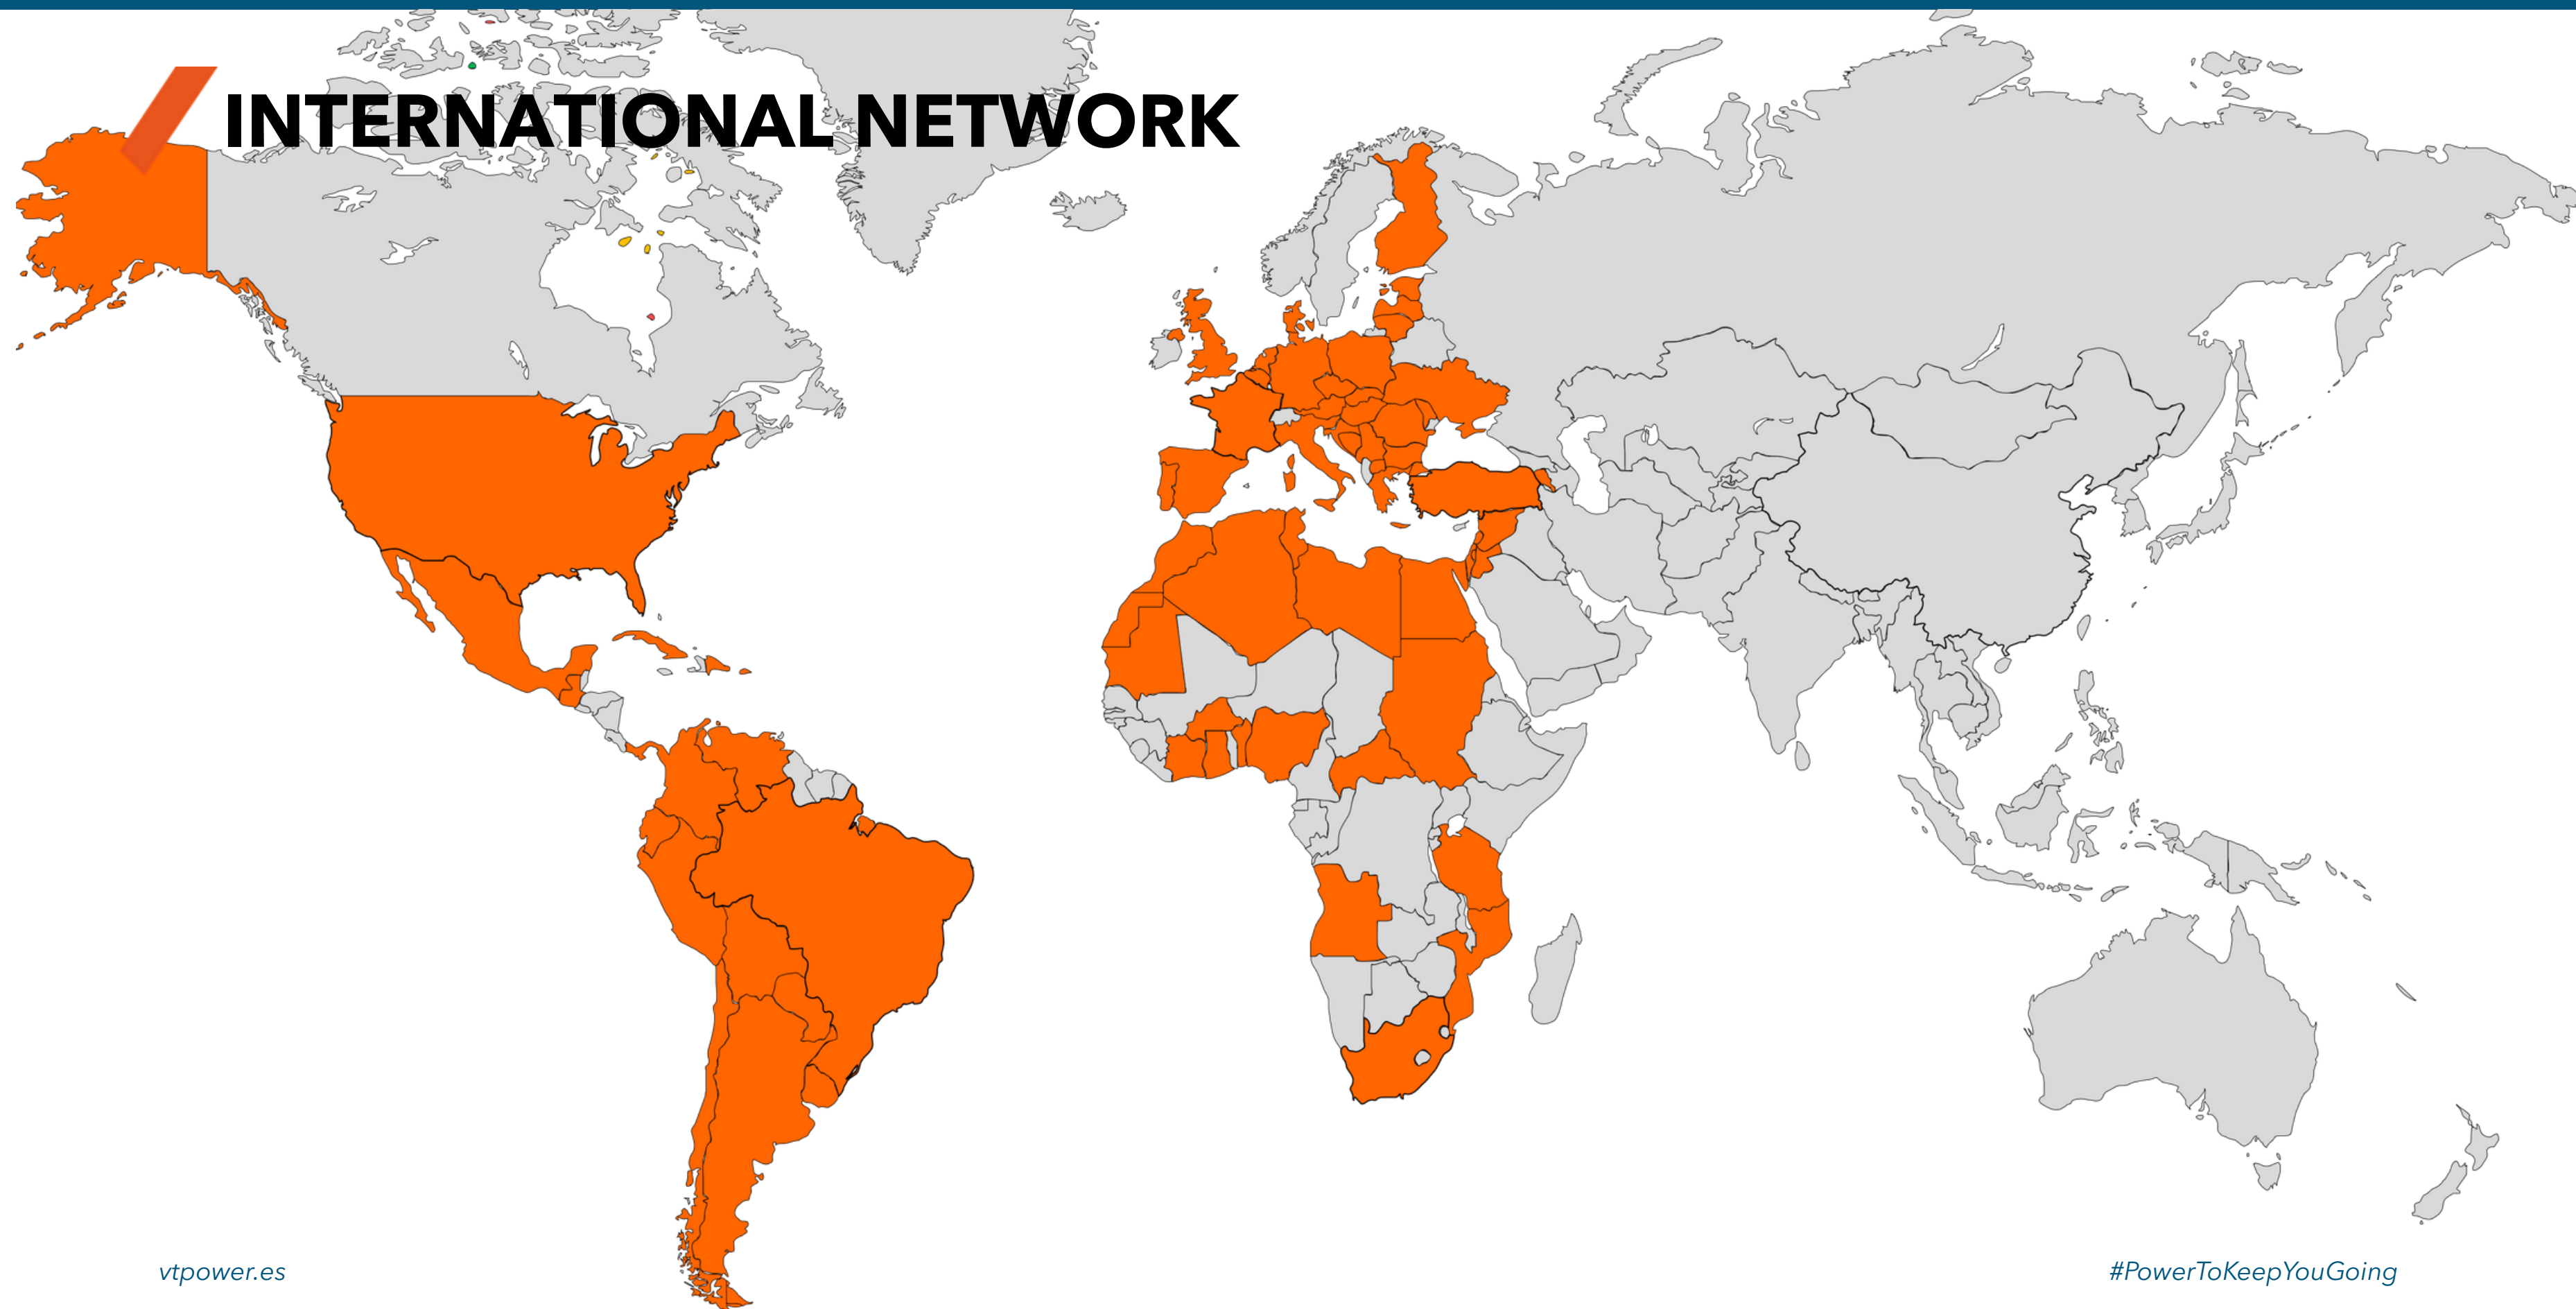

AUTOPARTS

INTERNATIONAL NETWORK

VTBatteries has a strong international network of distributors and customers that supports its global presence in **80 countries with recurring sales**.

Its solid international commercial network and its physical presence in different countries such as Morocco, Brazil, Colombia, South Africa and the USA allow it to reach practically every corner of the planet, consolidating itself as a global brand backed by leaders in the sector.

VTBATTERIES VALUES

VTBatteries' growth is based on non-marketable securities that have grown with the company's own evolution.

01 **TRUST**

Trust is the glue of business. The most essential ingredient of effective communication.

03 **QUALITY**

Quality is never an accident. It is always the result of intelligent effort and our main strength.

02 **LOYALTY**

Loyalty cannot be given in advance. It only arises when the right conditions are met.

04 **NONCONFORMITY**

Nonconformity means seeking improvement in all business processes and systems, always.

VTBATTERIES

VTBatteries has established itself as a leading multinational in the national market and an international benchmark with a wide commercial network and active presence.

The company, which started out focused on automotive batteries, has diversified its portfolio to include lubricants, additives and auto parts. Its alliance with leading brands has boosted its global reach, attracting top-tier companies that rely on VTBatteries to manage their worldwide distribution.

- We offer solutions for all energy storage needs
- In permanent stock
- Preferential agreements with own brands, premium brands and quality-price brands
- With a focus on customer adaptation

VTBATTERIES: SUBSIDIARIES

2021	Battery Shop: Moroccan branch	
2022	VT Power Brazil: South American subsidiary	
2023	VT Industrial: VT Division for industrial applications	
2024	VT Austral: A subsidiary serving the markets of southern Africa and Oceania.	
2025	VT Portugal: Subsidiary set up for the Portuguese market	
2025	VTBAT EMEA: African and Middle Eastern markets	

VTBATTERIES: SUBSIDIARIES

With the aim of strengthening its presence throughout **South America**, **VTPower Brazil** offers a comprehensive distribution service for batteries, lubricants and spare parts for automobiles throughout the region, thus reaffirming the commitment and quality of the brand together with the leading brands with which it collaborates.

- **AUTOMOTIVE:** LUCAS, EXIDE, SOLITE, ESAN
- **LUBRICANTS:** LUCAS OIL
- **AUTO PARTS:** LUCAS

VTBatteries' global presence extends through **VTAustral** as well.

Headquartered in Mauritius, this subsidiary supplies the markets of **Africa, the islands of the Indian Ocean and Oceania**, driving growth in the batteries, lubricants and automotive spare parts sectors together with leading brands of which it is the exclusive distributor throughout the continent.

- **AUTOMOTIVE:** LUCAS, EXIDE
- **LUBRICANTS:** GIRLING
- **AUTO PARTS:** LUCAS & ANDEL

VTBATTERIES: SUBSIDIARIES

VT EMEA SL is a company specialized in the import and export of batteries for automotive, industrial and nautical in the **AFRICA & EMEA** region.

We offer a wide range of premium and standard batteries, including lead-acid, start-stop and deep cycle.

Our goal is to be a go-to supplier for international importers and distributors prioritizing sustainability and maximum customer satisfaction.

- **AUTOMOTIVE:** EXIDE, SOLITE, ESAN
- **AUTO PARTS:** LUCAS

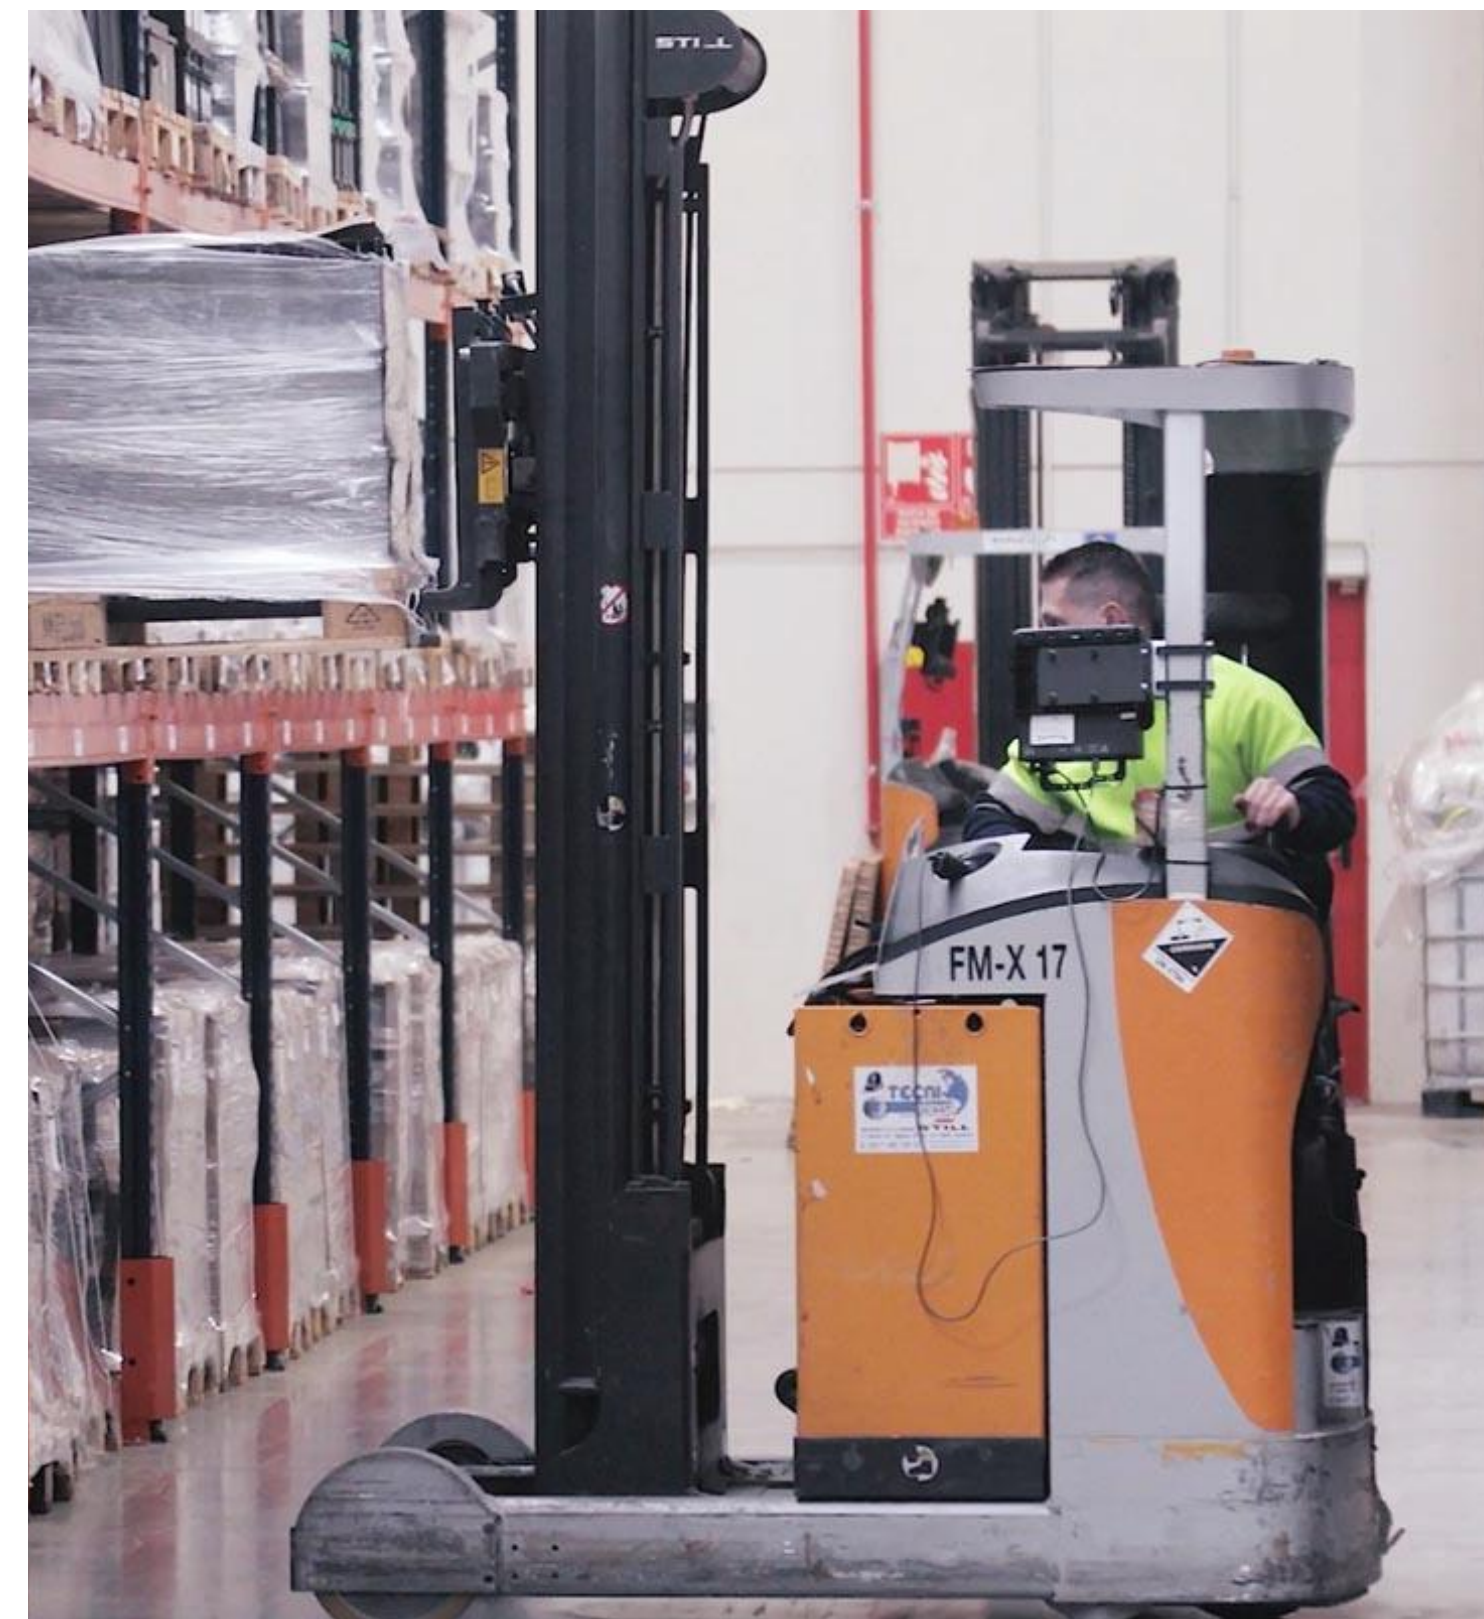

VTBatteries reinforces its commitment to the Iberian market by opening a new subsidiary in **Portugal**. This initiative will optimize service and logistics, in addition to having its own commercial network to offer a closer, more agile and efficient service to customers. A strategic step that consolidates the company's commitment to the growth and development of the Portuguese market.

- **AUTOMOTIVE:** EXIDE, SOLITE
- **LUBRICANTS:** LUCAS OIL

VTINDUSTRIAL

VTINDUSTRIAL is a subsidiary of VTGLOBAL, dedicated to the manufacture and distribution of **batteries for industrial applications** such as forklifts, reach trucks, pallet stackers and soon all lifting equipment, Energy Storage Systems, Solar Systems, marine and recreational applications related to Traction, Semi-traction and Deep Cycle for the Logistics sectors. Transportation, Storage, Industrial, Material Handling, Solar and Energy Storage worldwide.

VTINDUSTRIAL

VTINDUSTRIAL, offers EU-made Traction and Motor Power batteries manufactured in the EU, as well as solutions for semi-traction, mobility and UPS with flooded lead-acid, gel, hybrid and lithium (LiFePO4) batteries for Motor Power, Energy Storage and Deep Cycle Systems thanks to its solid product portfolio.

VTINDUSTRIAL is the exclusive distributor of the brands **ENEROC LITHIUM SYSTEMS**, **LUCAS INDUSTRIAL**, **HYUNDAI SUNGWOOL**, **SOLITE INDUSTRIAL** and **GIRLING INDUSTRIAL** in a very large territory around the world.

LEAD TRADE: GLOBAL SOURCING & TRADING SOLUTIONS

We are familiar with the technical requirements and are able to meet them

We know what a battery manufacturer needs because we've been working in the same market for years and we can deliver. It's not just a promise: it's the reality on which we've built Lead Trade.

WHAT WE KNOW

The technical requirements of a production line

Grades, alloys, impurity tolerances and consistency between batches.

AND WHAT WE BRING TO THE TABLE

Materials to specification, with a reliable supply

Refined lead, remelted lead, alloys and petroleum coke with a Certificate of Analysis (CoA).

VTBatteries: supplier and customer.

A feature that makes this project unique.

RANGE PRODUCTS

01
High-purity refined lead

Purity levels of 99.97 per cent, 99.985 per cent and up to 99.99 per cent Pb.

02
Remelted lead

Made from recycled, unrefined batteries.

03
Lead alloys for batteries

PbCa, PbSn and bespoke multi-element compounds.

04
Lead alloys with a high antimony content

PbSb with an Sb content of 10% to 20%.

05
Lead oxide

Red lead (Pb_3O_4), 60%–97% or as per customer specification.

06
Petroleum coke

Certified as originating in the European Union.

SPONSORSHIPS

At VT Batteries, we believe in the energy that comes from commitment, perseverance, and passion. That's why we support those who give their all on and off the pitch. From the circuits to the stadiums, we empower those who inspire with their daily effort.
